PREFACIO

Durante mi estancia en Barcelona en 1989, tuve la ocasión de conocer, gracias a Miguel Civil, la colección de tablillas cuneiformes neosumerias de la Abadía de Montserrat. Desde entonces, mis numerosas visitas a este lugar contaron con la aprobación de los sucesivos abades del monasterio Dom Cassià Maria Just y Dom Sebastià Bardolet; a ellos y a toda la comunidad deseo agradecer su siempre afectuosa acogida. Una mención de especial reconocimiento va dirigida también al P. Guiu Camps, actual responsable del Museu Bíblic de Montserrat: su infinita amabilidad en todo momento, generosidad con su tiempo y disponibilidad para ayudarme en los muchos problemas de catalogación y localización de las tablillas han facilitado enormemente la tarea de edición de estos textos.

La consecución del trabajo encontró un posterior apoyo, ahora desde la Universidad de Murcia, con una subvención concedida por la Dirección General de Investigación Científica y Técnica del Ministerio de Educación y Ciencia en el marco del Programa Sectorial de Promoción General del Conocimiento.

Este mismo organismo, en cooperación con el Deutsche Akademische Austauschdienst, subvencionó igualmente una colaboración con Hartmut Waetzoldt (Universidad de Heidelberg) que ha tenido como objetivo el estudio de las improntas de cilindrosello en las tablillas de Ur III. A lo largo de las tres semanas que duró nuestra estancia en la Abadía (abril 1993), el Prof. H. Waetzoldt, además de la revisión e identificación de los sellos, realizó numerosas colaciones a mis copias que han contribuido en no poco a la realización de este volumen. Por ello, y por su experto asesoramiento en otros aspectos, le debo mi más profundo agradecimiento. Huelga decir que los errores vertidos en esta edición son sólo responsabilidad del que suscribe.

Por su aliento, apoyo y consejos, debo gratitud, asimismo, a los siguientes estudiosos: Miguel Civil, Giovanni Pettinato, Gregorio del Olmo, Joaquín Sanmartín, José Remesal, Antonino González, José M^a Blázquez y Fumi Karahashi.

Deseo expresar, finalmente, mi reconocimiento a Giovanni Pettinato, quien, con su habitual entusiasmo y empeño en la publicación del material epigráfico de la Tercera Dinastía de Ur, ha aceptado la inclusión de este volumen en la serie *Materiali per il Vocabolario Neosumerico* de la Unione Accademica Nazionale de Italia.

INTRODUCCIÓN

La colección de tablillas cuneiformes que actualmente se encuentra depositada en la Abadía de Montserrat fue adquirida por el P. Bonaventura Ubach¹ entre 1922 y 1923, junto con muchas otras antigüedades procedentes de Iraq, Irán, Anatolia, Siria-Palestina y Egipto destinadas al Museu Bíblic. Según anota el viajero en su diario², la compra de tablillas, cilindros, ladrillos de fundación, conos, un kudurru y una mina inscrita fue realizada según la siguiente secuencia:

- Bagdad, 26.9.22: "compra de una considerable cantidad de tablillas cuneiformes al sirio Semkheri".
- Bagdad, 12.1.23: "compra de una considerable cantidad de tablillas".
- Bagdad, 24.1.23: "compra de tablillas cuneiformes".
- Bagdad, 3-21.2.23: "compra de algunas tablillas y clavos cuneiformes y veinticuatro cilindros".
- Bagdad, 25.2.23: "compra de una mina real de procedencia desconocida, pero con una inscripción, varias tablillas cuneiformes y tres cilindros".
- Al Hillah, 28.2.23: "compra de algunos cilindros y algunas tablillas cuneiformes".
- An Nasiriyah, 4.3.23: "compra de un fragmento de kudurru".
- Bagdad, 12.3.23: "compra de un ladrillo con una inscripción".
- Bagdad, 13.3.23: "compra de tres tablillas cuneiformes".
- Bagdad, 15.3.23: "compra de tablillas cuneiformes, conos, etc. al sirio Semkheri".
- Basora, 16.4.23: "compra de un cilindro muy bien conservado".
- Basora, 25.4.23: "compra de dos ladrillos con inscripciones muy claras".
- Basora, 27.4.23: "compra de un ladrillo de Nabucodonosor del templo de Ur".
- An Nasiriyah, 29.4.23: "compra a un judío de diez tablillas cuneiformes, cien tablillas cuneiformes bien conservadas, fragmentos de otras doscientas y tres conos".
- An Nasiriyah, 29.4.23: "compra de cilindros de lapislázuli, tres cilindros (dos son de amatista y uno blanco de Gilgamesh³), cuatro cilindros al Sr. Elies Haddad y dos cilindros".
- Al Hillah, 30.4.23: "compra de una tablilla de Niffer y algunas de Hmeira".
- Nimrud, 15.5.23: "compra de un fragmento de ladrillo con inscripción".
- Bagdad, 30.5.23: "compra a un armenio de dos grandes tablillas cuneiformes y otras más pequeñas, y conos".

La colección entró en Montserrat el mismo 1923, y allí permaneció hasta comienzos de 1937, cuando, en plena Guerra Civil, 380 tablillas y 74 cilindros fueron llevados al Museo del Louvre de París por iniciativa de P. Bosch i Gimpera. Aquí estuvieron inicialmente al cuidado de L. Delaporte hasta que en marzo de 1947, concluida la Segunda Guerra Mundial, fueron devueltas a la Abadía por mediación de Mlle. Manneville, por aquel entonces conservadora adjunta del Museo del Louvre³.

¹ Sobre la vida y obra de este insigne bibliista, puede consultarse la biografía de R.M. Díaz i Carbonell, *Dom Bonaventura Ubach. L'Home, el monjo, el bibliista*, Barcelona 1962.

² La edición del diario de viaje de B. Ubach, de próxima aparición, está actualmente a cargo del P. Guiu Camps, a quien debo los datos que aquí se mencionan.

³ Un relato detallado de las vicisitudes por las que pasó la colección durante estos años puede encontrarse en R.M. Díaz i Carbonell, "La recuperació dels segells-cilindres i de les tauletes cuneiformes del Museu Bíblic", *Montserrat Bullett del Santuari* 31 (1991) 29-32.

El primer estudio de importancia realizado sobre las tablillas fue obra de N. Schneider⁴, quien se ocupó de la publicación de 390 textos sumerios de la Tercera Dinastía de Ur seleccionados entre los primeros 600 números de inventario del museo. Dicha edición sufrió una notable revisión por parte de L. Cagni⁵, quien, además de poner de relieve las virtudes y los defectos del volumen de Schneider y resolver parte de los problemas de catalogación, realizó un gran número de colaciones a sus copias.

El resto de los textos de la colección ha permanecido inédito⁶, excepto en el caso de algunos de carácter literario y léxico, de los que se ha ocupado principalmente M. Civil⁷, y en el de las tablillas de época sargónica⁸.

La presente edición abarca la totalidad de los textos administrativos de la Tercera Dinastía de Ur conservados en la Abadía de Montserrat, incluyendo aquellos previamente publicados por N. Schneider. En ella se proporciona el catálogo general y las copias de los textos; éstas han sido realizadas siguiendo las convenciones habituales en los trabajos de asiriología y aumentadas en un 30% sobre el tamaño real de la tablilla. En conjunto se han copiado 758 tablillas o fragmentos, a los que hay que añadir diez números de catálogo correspondientes a textos no copiados por encontrarse en muy deficiente estado de conservación (n^{os} 381, 452, 580, 619, 717, 721, 738, 763, 764 y 765), una bulla anepigráfica (n^o 655), una tablilla desaparecida (n^o 316 = AnOr 7 316) y dos grupos de pequeños fragmentos sin interés (n^{os} 753 y 754).

Transliteraciones e índices se reservan para un segundo volumen que aparecerá próximamente en la serie *Aula Orientalis - Supplementa* (Sabadell-Barcelona); este segundo libro contará también con un apéndice, realizado por H. Waetzoldt, en el que se estudian las improntas de cilindrosello de los textos.

Para la numeración de los documentos he considerado prioritario conservar la ofrecida por N. Schneider en los ya editados (por ej. n^o 1 = AnOr 7 1), con el fin de no complicar aún más el ya de por sí confuso mundo de las publicaciones de textos de Ur III. En las ocasiones en que alguna de las tablillas de AnOr 7 ha sido objeto de *join* con otro fragmento, se ha optado por la numeración más baja de esta edición; en el caso de que el segundo fragmento haya sido también publicado en AnOr 7, este último se ha eliminado del catálogo (por ej. n^o 332 = AnOr 7 332+333: se elimina *n^o 333 = AnOr 7 333). Esta premisa ha condicionado la organización de toda la edición e impedido publicar los textos ordenados por ciudades, datación, sellos o contenido. Así, las tablillas inéditas se han dispuesto a continuación de las ya publicadas por Schneider siguiendo estrictamente la secuencia de sus números de inventario (MM).

⁶ Las cerca de 200 tablillas del II y I milenio a.C. se encuentran actualmente en estudio a cargo de J. Sanmartín (Universidad de Barcelona).

⁷ Una bibliografía completa de los textos ya editados podrá encontrarse en el catálogo general de las tablillas cuneiformes de la Abadía de Montserrat, realizado por J. Sanmartín y M. Molina, que se publicará próximamente en la revista *Aula Orientalis*.
